Experienced Full-Stack Developer with nearly 2 years of expertise in building responsive web applications and handling cloud deployments. Proficient in HTML, CSS, JavaScript, React, and backend technologies such as Java, Spring Boot, and Firebase. Skilled in GCP deployment, web scraping with Python, and mentoring team members. Adept at creating and deploying scalable, user-friendly, and secure web solutions.

EXPERIENCE

FRONT-END & FULL-STACK DEVELOPER

Cognived Solutions | Bengaluru, India

2023 – PRESENT

- Built responsive user interfaces using HTML, SCSS, CSS, JavaScript, and React
 - Converted Figma designs into pixel-perfect web pages, enhancing the user experience
 - Developed RESTful APIs with Java and Spring Boot, ensuring smooth data flow between front-end and back-end
 - Worked with Firebase for real-time database functionalities and authentication
 - Deployed and managed development and production servers on Google Cloud Platform (GCP)
 - Ensured application scalability and performed continuous integration
 - Developed Python scripts to scrape data from e-commerce websites, automating the data extraction process
 - Provided mentorship to an intern, guiding them through development workflows and debugging processes
 - Led the development of an Admin portal, overseeing both the front-end and back-end implementations
 - Integrated back-end services using Spring Boot and deployed applications in production with GCP
 - Remote Work Experience: Virtual Collaboration through platforms like Skype, Zoom, and others
 - Strong time management skills, balancing multiple tasks across different time zones
 - Expertise in document management and version control systems (e.g., Git)
 - Adaptability to various work schedules and time zones for seamless communication and collaboration
 - Experience with remote onboarding and virtual training for new members
-
